June 4th - 2 Days

FORT BENTON

Founded in 1846 as a fur post, Fort Benton is the oldest continuously inhabited settlement in Montana. From its palisaded walls grew the most important transportation center in the Northwest. Trails led to all points of the compass, carrying goods and supplies to the U.S. and Canada. Steamboats docked at Fort Benton's levee. Freight was loaded into giant wagons pulled by hundreds of mules and oxen to faraway places in Idaho, Washington and Alberta. When the railroads crossed Montana and Alberta in the early 1880's, the town ended as a transportation center but the area continued to prosper with cattle, sheep and wheat.
